WORK EXPERIENCE

Associate Consultant - EY India **Jul 2024 - Present**

Project: ADNOC Distribution, SAP S/4HANA transformation (Oil & Gas Retail, UAE)

Role: Data Migration & SAP Enable Now

- Built 50+ LSMW automations and load templates for recurring master data loads, cutting manual file preparation across mock cycles.

- Loaded master data for Business Partner, Customer, Vendor, Material Master, Pricing Conditions, PM functional locations and equipment, and other objects across Retail, Depot and B2B lines of business, using LSMW, custom load programs or manual loads depending on the object.

- Ran data cleansing and pre- and post-load validation across Dev, Quality, UAT, Pre-Production and Production, logging mismatches and working with functional teams to fix them before each cycle closed.

- Tested custom upload programs with ABAP developers, tracing dynpro errors and background job failures back to the data or logic behind them.

- Prepared cutover readiness files, mock-load calendars and status trackers for each migration cycle.

- Delivered 100+ SAP Enable Now training recordings to the client, covering recording, editing, and final quality review against their standards, along with end-user documentation for go-live.
